REMARKS

In a communication mailed February 15, 2005, claims 1-15 were allowed. The Examiner provided a statement of reasons for allowance. To avoid the reasons from being construed out of context by implying that the point of novelty was the selective bit shifting of each of a sum and a carry, Applicants are filing these remarks. As indicated in the first paragraph of the reasons for allowance, this application was allowed because the collective recitations in each of independent claims 1, 11 and 14 were distinguishable over the art made of record, including those references deemed by the Examiner to be most relevant.
